AUTHOR Boal, Steve
TITLE Vocational Education Research Report on Postsecondary Student and Employer Follow-Up: 1986 Survey.
INSTITUTION Iowa State Dept. of Education, Des Moines.
SPONS AGENCY Department of Education, Washington, DC.
REPORT NO CE-87-R2
PUB DATE May 87
NOTE 262p.
PUB TYPE Reports - Research/Technical (143) -- Statistical Data (110) -- Tests/Evaluation Instruments (160)

EDRS PRICE MF01/PC11 Plus Postage.
DESCRIPTORS Education Work Relationship; *Employer Attitudes; *Employment Patterns; Followup Studies; Majors (Students); *Outcomes of Education; *Participant Satisfaction; Postsecondary Education; Questionnaires; State Surveys; Vocational Followup
IDENTIFIERS *Iowa

ABSTRACT

A study was conducted by the Iowa State Department of Education to gather follow-up data on former students who completed employment-preparation programs at one of the 15 community colleges in Iowa during 1984-85. Study findings, based on college data and responses from 1,091 of a sample of 3,676 program completers and 444 of 583 employers of former students, included the following: (1) the total number of completers of vocational programs statewide for the participating community colleges was 10,122; (2) 5,404 or 54.4% of the total were reported as currently employed; (3) of the currently employed completers, 4,879 (90.3%) were employed in an occupation related to their program of instruction, while only 525 (9.7%) were employed in an unrelated area; (4) 4,356 (81.6%) of the employed completers were currently employed in Iowa, while 18.4% were employed out of state; (5) the average weekly wage for completers employed in a field related to their program of instruction was $220.84 ($5.52 per hour); (6) 5.2% of the former students were pursuing additional education; 6.7% were not employed, but were actively seeking employment; and 1.6% were not in the labor market; (7) 74% of the respondents indicated that the vocational instruction they had received was of "some" to "major" importance in obtaining employment; and (8) over 80% of the employers of the program completers rated them as "good" or "very good" in terms of technical knowledge, work attitudes, and work quality. The bulk of the report consists of detailed data tables. Appendices include information on Iowa's Common Data System and sample survey instruments. (EJV)

INTRODUCTION

The need for information about employment success after students have completed or left educational programs designed to prepare them for employment has been recognized for some time. Follow-up studies of these former students and their employers provide data that enable the determination of whether or not former students are employed in the occupation for which they were trained as well as salary information and also enable the assessment of the adequacy of job preparation training programs in providing employees to meet employer needs.

The Federal monies for follow-up activities has been specified in Section 112 (b)(1)(B) of Public Law 94-482 and is continued in the Carl D. Perkins Vocational Education Act, Part C (Section 421, Section 423), that calls for an evaluation by using data collected, by statistical valid sampling procedures, of each state program according to the extent to which program completers and leavers find employment in occupations related to their training.

The National Center for Education Statistics has included student follow-up reporting as a component in the annual Vocational Education Data System (VEDS). VEDS reporting has been discontinued for the current fiscal year, however, these data are required in Federal accountability reporting.

The 1985-86 student follow-up detailed survey involved a sample of approximately 20% of the local education agencies offering programs to prepare students for employment. The sampling plan was developed according to NCES parameters in a manner to maximize representation in terms of students, variety and number of programs, and geographic location of LEA's over a five year period.

In an effort to improve student vocational follow-up at both the secondary and community college level, a Statewide Student Follow-up Committee composed of representatives of secondary schools, AEA's, and community colleges met during 1983-84 to develop recommendations for improvement. A second committee with similar composition met the following year to develop recommendations for implementing the changes suggested by the previous committee.

As a result of these group efforts, the following changes have been made:

- o Questions on the sample survey questionnaire were modified to better meet local, state, legislative, and federal reporting needs.
- o A "common data" instrument was developed by community colleges which would gather more complete base educational and employment follow-up data by instructional program for each community college to be used to provide annual statewide follow-up data.

The community colleges desired to coordinate the mailing of the sample survey questionnaires while the Iowa Department of Education agreed to process this information.

The Iowa Department of Education further agreed to develop the means to process and summarize the common data which the community colleges would provide on an annual basis.

Further developments include the development of IBM MS DOS/PC DOS microcomputer based systems to collect and report both the sample survey data and the Common Data for area community colleges.

These developments have speeded up the follow-up process, reduced paper flow and enabled the community colleges to generate their own reports.

COMMON DATA SYSTEM
VOCATIONAL STUDENT FOLLOW-UP
OF PROGRAM COMPLETERS

METHOD

Subjects. The subjects of the common data system consisted of former students who completed educational programs that prepare students for employment during the 1984-85 school year in all 15 community colleges in Iowa.

Materials. The materials consisted of an aggregate preprinted program based common data form and the microcomputer management system, an IBM MS DOS microcomputer system, which contained information identical to the preprinted common data forms and instructions for completing either mechanism.

Procedure. Information identifying the number of completers reported by each community college for each instructional program and community college during FY 85 reimbursement was downloaded from the Department of Education's (Vocational) Information System. The Common Data reporting form was IBM microcomputer generated using the downloaded information which had been reported in the CE-4 reimbursement document for FY 85.

In addition, an IBM microcomputer compatible data base file to be used with the Vocational Student Follow-up Microcomputer Management System was developed from the downloaded completers by program data which exactly corresponded to the common data student follow-up form.

The community colleges were provided with the option of reporting the education/employment status information for FY 85 completers either on the Common Data Student Follow-up Form or on floppy disk through the Iowa Vocational Student Follow-up Microcomputer Management System.

Initial common data materials were sent to the community colleges March 13, 1986. Responses on either the microcomputer system or preprinted form from fourteen of the fifteen community colleges were received by December 1986.

The community colleges participating in the more detailed 20% one-in-five year survey, formerly known as VEDS, provided only the detailed survey information which was then reformatted to meet the constraints of the common data collection in an effort to reduce duplication and paperwork.

Information from all responding community colleges was combined and included in the microcomputer management system and returned to all community colleges.

The Iowa Vocational Student Follow-up Microcomputer Management System has the capability of generating reports for each community college along with a state profile by instructional program and overall.

RESULTS AND DISCUSSION

Common Data

Table 1, page 6 show the overall results of the common data collection for each participating community college as well as the state profile.

The total number of completers of vocational programs statewide for the participating community colleges was 10,122. There were 5,404 or 53.4% of the total who were reported as currently employed. Of those completers currently employed, 4,879 or 90.3% were employed in an occupation related to their program of instruction while only 525 or 9.7% were employed in an unrelated area. There were 4,356 or 81.6% of those completers employed who were currently employed in Iowa while 18.4% were reported as employed out of state.

The average weekly wage (based upon 40 hours) for completers employed in a field related to their program of instruction was $220.84 or an hourly wage of $5.52.

Approximately fifteen percent (14.6%) or 1,479 of these former student were not employed with 523 or 5.2% pursuing additional education; 676 or 6.7% not employed, but actively seeking employment; 161 or 1.6% not in the labor market; and 119 or 1.2% listed as other (military is included in this category).

Student follow-up data was not reported for 3,035 or 30.0% of the 10,122 former students. A program by program breakdown of student follow-up reported through the common data system is available through the Iowa Vocational Student Follow-up Microcomputer Management System for IBM MS DOS/PC DOS compatible microcomputers from the Iowa Department of Education.

VOCATIONAL STUDENT FOLLOW-UP SAMPLE SURVEY SYSTEM

DETAILED ANALYSIS OF PROGRAM COMPLETERS AND LEAVERS

METHOD

Subjects. The subjects of Phase 1, the base data survey, consisted of a 20% sample of three of 15 merged area school administrators who had students who had completed or left educational programs that prepare students for employment during the 1984-85 school year (see Appendix B-1). The subjects for Phase 2, the student follow-up, consisted of students reported in the base data survey as completing or leaving the educational programs.

Materials. The materials for Phase 1 consisted of a base data collection form for merged area schools/community colleges (CE-4S), instructions, and cover letters (see Appendix B-2). Phase 2 materials consisted of cover letters to students and the student follow-up survey instrument (see Appendix B-3).

Procedure. Phase 1, base data survey, consisted of developing a roster of 1984-85 completers and leavers of educational programs that prepare students for employment, involved orienting the administrator and conducting the base data survey within the designated local education agencies to obtain students' names, addresses, and characteristics (completion status, sex, race/ethnic, handicapped, limited English proficiency, disadvantaged, and JTPA) according to program C.I.P. number and program title.

During the vocational education reimbursement cycle for FY 85 (between April and October 1985), the base data summary package was mailed to each selected merged area school administrator. Each contact person was requested to provide information regarding former students who completed or left educational programs that prepared them for employment. This information was requested by specific C.I.P. number, name and mailing address of each former student, program completion status, sex, racial/ethnic characteristics, handicapped, limited English proficiency, disadvantaged, JTPA, and type of award (postsecondary only). Responses were received from 3 postsecondary schools who had programs operating in FY 85. The forms were screened by the Department of Education personnel in order to edit the data. By the conclusion of Phase 1, information was obtained from 3,864 former students, of which some were duplicates.

Phase 2 involved surveying the students identified in Phase 1. Phase 2 was conducted between April 2, 1986 and August 30, 1986.

Survey forms sent to the community colleges were mailed to the former students identified in Phase 1 with instructions to complete the mailer (survey) and return it. One initial mailing and two follow-up mailings to nonresponders were made in order to boost the number of responders. No telephone follow-up was made. Duplicate names were identified by editing the file and the returns, and as a result, the final unduplicated file consisted of 3,676 students.

The employers of the respondents from Phase 2 who indicated they were employed in a field related to their training were selected to participate in Phase 3 (the employer follow-up).

On July 18, 1986 employer survey questionnaires were sent to 583 employers whose names and addresses were provided by the students participating in Phase 2 (see Appendix B-4). Two follow-up mailings to nonresponders were conducted on August 19, 1986 and September 11, 1986.

Phases 2 and 3 were completed by August 30, 1986.

Editing and file clean-up was completed in October 1986. By the completion of the survey, student responses were received from 1,091 of the 3,676 students and 444 of the 583 employers.

RESULTS AND DISCUSSION

STUDENT FOLLOW-UP

A total of 1,091 or 29.7% of the survey questionnaires pertaining to the final 3,676 unduplicated list of 1984-85 student completers and leavers were returned with a response to at least one item on the Student Follow-up Survey form. The first mailing resulted in the 20.9% responses. The second mailing yielded an additional 5.2% response, and the third mailing resulted in 2.4% response.

The following data summarize the responses and non-responses to the survey according to relevant factors:

	Total		Completers		Leavers	
Factor	No.	Percent	No.	Percent	No.	Percent
Total	3676	100.0	2509	100.0	1167	100.0
Responded to first mailing	768	20.9	607	24.2	161	13.8
Responded to second mailing	191	5.2	159	6.3	32	2.7
Responded to third mailing	132	2.4	111	4.4	21	1.8
Subtotals	1091	29.7	877	35.0	214	18.3
Non-Deliverables	90	2.4	62	2.5	28	2.4
Non-Responders	2495	6.8	1570	62.6	95	8.1
Subtotal	2585	70.3	1632	65.0	123	10.5

The data below summarize the status of the 3,676 students who were surveyed in the Student Follow-up. It is quite evident from the table that for program completers 61.4% of the respondents were employed in an occupation related to their training as opposed to 34.8% for program leavers. Completers employed in an occupation unrelated to their training were 7.8% of the respondents compared to 22.2% for leavers. Overall, 76.2% of the completers compared to 57.0% of the leavers were employed in some occupation. The employment percentage increases to 76.9% for completers and 59.4% for leavers if military employment for 0.6% of respondent completers and 2.1% of respondent leavers is included in overall employment. Continuing education was pursued by 8.7% of the completer respondents and 19.8% of the leaver respondents. There were 10.0% of the completer respondents unemployed with 4.9% seeking employment, while 5.1% were not seeking employment. These percentages compare with 20.8% unemployment for leavers; of which 12.6% were seeking employment and 8.2% were not seeking employment.

Status of Vocational Preparatory Students Surveyed*

*Figure 1 shows the employment status of postsecondary students approximately one year after completing or leaving the program (page 26).

Tables 2, 3, and 4 show the employment status and hourly wage information of students who completed or left education designed to prepare them for employment. These tables are labeled part 1 and part 2 to indicate that each table consists of two pages.

Table 2 breaks this information down by the following occupational areas: agriculture, distributive education, health occupations, occupational home economics, office occupations, technical, trade and industrial, and multi-occupational by sex of student.

Table 3 shows the employment and educational data by program title and C.I.P. number.

Table 4 breaks this information down for each merged area school summarized by occupational area.

STUDENT PERCEPTIONS

Table 5 shows vocational education perceptions of former students who completed or left vocational instruction during 1984-85. Specific perceptions were requested concerning "instruction are expectations", "importance of instruction in obtaining employment", "instructional preparation in employment performance", "difficulty in finding employment", "length of time to find employment", "primary purpose in enrolling in vocational program", and "whether or not objective was met".

There were 87.0% of the respondents who indicated that their vocational instruction met or exceeded their expectations. For completers, 91.0% felt that their vocational instruction met or exceeded their expectations compared to 69.7% for program leavers. Only 13.1% felt that their instruction fell short of expectations with 2.4% indicating it was totally unsatisfactory. For completers, 9.0% indicated instruction fell short of expectations and 1.3% of that group felt that there instruction was unsatisfactory. For leavers, 30.2% of the respondents indicated that their instruction fell short of expectations, and 6.9% of that group felt that their instruction was unsatisfactory. As would be expected, leavers were less satisfied with their instruction than were completers.

Similarly, the "importance of vocational instruction in obtaining employment" was rated of some to major importance by 74.0% of the respondents while only 15.3% felt it was of little to no importance. For completers, 11.7% viewed it as of little to no importance compared to 32.5% for leavers.

"Preparation of vocational instruction for employment performance" was judged to be "reasonably well" to "very well" by 72.1% of the survey respondents. Only 13.1% felt their preparation was "not well" or "of no value". The substantial difference in views of completers and leavers was maintained on this item as well.

Responses concerning "difficulty of finding employment" indicated 24.1% of the employed respondents thought it was "difficult" to "very difficult" to find employment while 53.8% found employment "somewhat easy" to "easily".

For those former students who were employed in an related area 53.3% found employment in less than 30 days. An additional 23.1% were employed within three months. Only 14.4% indicated more than six months time required to find employment. As expected, completers generally received employment more quickly than leavers.

The overwhelming reason for enrolling in a vocational program was to obtain employment (50.3%), followed by career exploratory (18.4%), and upgrading skills (17.0%). Retraining accounted for the primary purpose of instruction only 6.4% of the respondents. There was some vacation in the primary purpose for completers and leavers although the major reasons were similar.

Almost two-thirds of the former students (65.1%) indicated their objective in enrolling was met. More completers indicated this result (67.8%) then leavers (52.9%).

For those respondents currently attending school, 42.6% indicated that the school location was the same (i.e. community college), 26.4% a four year college, 17.2% "other", and 13.2% another community college.

For those respondents currently attending school almost two-thirds (64.1%) felt the current education program was related to their former vocational education program.

EMPLOYER FOLLOW-UP

The following data summarize the responses and nonresponses to the survey according to relevant factors. A total of 444 or 76.2% of the 583 survey questionnaires mailed to 1984-85 vocational program completers and leavers employed in the occupation in which trained or related field were returned at project completion. The first mailing resulted in 48.2% usable returned survey forms. Second mailing yielded an additional 20.8% usable responses and the third mailing added 7.2% to the overall response rate.

Factor	Total Number	Total Percent
Total Surveyed	583	100.0
Total Response	444	76.2
First Mailing	281	48.2
Second Mailing	121	20.8
Third Mailing	42	7.2
Nonrespondents	132	22.6
Non-deliverable	7	1.2

Table 6 shows various demographic and descriptive characteristics about the former students and their programs for whom employers returned questionnaires. These same characteristics are summarized for employees prepared at secondary schools and merged area schools (page 70).

The following characteristics of employers were identified by the survey:

(1) About twenty-eight (28.2%) of the responses from employers pertained to male students compared with 71.6 percent for female students.

(2) Nearly nine out of ten (89.0%) of the former students were currently employed. The following data summarize the employment status of this group:

Currently Employed	89.0%
Discharged (Fired)	0.5%
Voluntarily left (Resigned)	7.4%
Not Stated	2.7%

(3) Almost half (46.8%) of the students found employment with small employers (25 or fewer full-time employees).

(4) A little less than half (45.4%) of the students were employed for more than one year by the reporting employer.

Table 7 shows the student program participation by six digit C.I.P. program number and title. This table indicates how the 444 former students of the completers and leavers who responded to the survey are distributed by instructional programs. The area of Nursing had 38.7% of the students concentrated within those categories followed by Homemaker Aide with 6.5% of the employees (page 73).

Figures 2-6 and Table 8, pages 78-82, and 83 shows the percent of the postsecondary employer responses statewide to questions concerning preparation and current performance of vocationally prepared employees.

In terms of vocational training evaluation, each of three factors was rated in addition to computing an overall rating. For technical knowledge (Figure 2), 82.5% of the responses indicated a "very good" or "good" rating, while "poor" and "very poor" made up 1.8% of the responses. Responses from 84.0% of the respondent employers categorized work attitudes (Figure 3) as "very good" or "good" compared with 2.7% rating work attitudes as "poor" or "very poor." Work quality (Figure 4) was viewed as "good" to "very good" according to 84.2% of the responses compared to 2.0% responses indicating "poor" to "very poor." Overall (Figure 5), 79.7% of the responses evaluated training of workers as "good" compared to 1.1% responses rating overall training as "poor" to "very poor."

In terms of the relative preparation (Figure 6) of vocationally prepared employees with non-vocationally prepared employees in similar positions, 39.4% of the vocationally prepared employees, according to the responses, were considered to be better prepared for similar positions while 6.8% were considered to be less prepared.

In terms of current performance (Table 8) of vocationally prepared individuals relative to actual job expectations, eleven factors were considered. Vocationally prepared individuals generally were considered to be performing at or above the expected level. The percent of responses indicating the employee performed below expected or satisfactory level ranged from 3.2% for "punctuality" to 6.3% for "ability to work with minimal supervision."

Following the tables described above are more detailed presentations. Table 9, page 86 shows the merged area school vocational training evaluation by demographic and program characteristics (see Appendix B-4).

Table 10 displays the responses to the evaluation items by program C.I.P. numbers in merged area schools.

INSTRUCTIONS FOR COMPLETING CE-COMCOLL STUDENT FOLLOW-UP PRE-PRINTED COMMON DATA FORM

NOTE: If you have access to an IBM PC compatible computer (i.e., with MS-DOS or PC DOS) you are encouraged to complete this information on floppy disk and return a copy to DE. A manual and floppy disk are provided for your convenience. If you have questions concerning this procedure, please see information at bottom of instructions for phone numbers to call.

1. Information including county number, district (area school) number, school (site), CIP (program identifier), state program name, local program name, and code set (instructional level, type of program, special emphasis, object/purpose, and status) and total number of completers were pre-printed from information you reported during FY86 reimbursement on the CE-4 form.

   Please review this prepared information for accuracy. No changes should be necessary in this information, however, if errors are discovered please correct them by drawing a line through the incorrect information and making the necessary corrections.

2. Item 1. Indicates the **Number of Completers** which were reported for FY 86.

3. Item 2. Total **Number of Completers Employed**, please indicate in the space provided for 2(a) the number of completers employed in an occupation related to the program identified by the CIP and program name on the specific form.

   a. For Item 2(b), indicate in the space provided the number of completers employed in an occupation unrelated to the program identified at the top of the form.

   b. For Item 2(c), **Location of Employment.** Please indicate in the space provided the number of completers employed in state 2(c, 1) and the number employed out of state 2(c, 2). These numbers should total to 2(a) and 2(b). (Number of completers employed in occupations trained or related occupations and completers employed in unrelated occupations.

   c. In Item 2(d), **Average Weekly Wage.** Enter to the nearest dollar the average weekly wage for completers reported in 2(a) above (completers employed in occupation trained or related occupations.

4. Item 3. **Number of Completers Not Employed.** For item 3(a) indicate in the space provided the number of completers whose primary status is Continuing Education or pursuing additional education.

a. For Item 3(b), **Not Employed but Seeking Employment.** In the space provided, report the number of completers who are not employed but actively seeking employment.

b. In Item 3(c), **Not in Labor Market** (not seeking work) enter in the space provided the number of completers who are not in the labor market and not seeking work, not elsewhere reported.

c. Item 3(d), **Other** pertains to the employment/education status of completers who cannot be reported in any of the other categories and where status is known. Be sure to specify the category being reported for those completers.

5. Item 4. **Total Number of Completers Unknown,** enter the remaining number of completers whose education or employment status is not known.

IMPORTANT - Items 2(a), 2(b), 3(a), 3(b), 3(c), 3(d), 4 must total Item 1. Also items 2(c, 1), 2(c, 2), 3(a), 3(b), 3(c), 3(d), 4 must total Item 1.

If you have any questions concerning this survey, please contact either Steve Boal (515-281-4730) or Ed Ranney (515-281-3893).

When all forms have been completed, please return to:

INSTRUCTIONS FOR COMPLETING CE-COMCOLL STUDENT FOLLOW-UP COMMON DATA FLOPPY DISK VERSION

NOTE: If you complete the information on the floppy disk, you do not need to complete the pre-printed common data form. This system operates on a MS-DOS or PC-DOS IBM compatible microcomputer. Although this system is similar to dBASE III, dBASE III software is not needed or used to access and use it. Since the system is all menu driven, very little explanation should be necessary. However, the following instructions will help you get underway.

1. Run the program BMENU.EXE
   A > BMENU.EXE or B > BMENU.EXE
   Depress Return

2. If running from a floppy disk, enter "Y" at the prompt. Otherwise, enter "N".

   You will then be prompted for Drive A or B.

   The filename for the data identified on the disk (e.g. FAREA1 for Merged Area I). Enter the filename at the prompt and the drive, if different, then the drive where the program is running (e.g. B:FAREA1).

   By depressing ENTER only at the prompts, the system defaults are in operation (i.e. DRIVE=B for program and file, filename = FOLUP87).

   From this point you will be able to access the system through the menu. The accompanying manual Iowa Vocational Student Follow-up Microcomputer Management System will show you what is needed to enter the information (EDIT), check the records for errors, and print a preliminary report summary.

3. Please return the floppy disk upon completion. You may make yourself a copy if you like (call for questions).

   You will receive back a disk containing all statewide data as well as data for your school when it is complete.

For further assistance, contact: Steve Boal (515) 281-4730 or Ed Ranney (515) 281-3893.

APPENDIX B-2

Instructions for Completing the CE-4S Form About 1984-85 Postsecondary Completers/Leavers

1. Enter or verify that county, district, school number, and school name are correct on the form.

2. For forms without labels attached or additional forms, complete the CIP number of the program that students completed or left during 1984-85. Also provide information concerning instructional level, type of program, special emphasis, and object and purpose. These codes should correspond to those used on the CE-4 form for program approval and reimbursement for FY 1985.

   Each time one of these codes changes, use an additional form. If you need more forms or have any questions, contact the Department of Education (Steve Boal '515' 281-4730 or Ed Ranney '515' 281-3893) or zerox from a blank form.

3. For forms without labels attached or additional forms, enter the program name in the space provided.

4. For each student who completed or left the vocational program identified between July 1, 1984 and June 30, 1985 - provide his/her name, address (number, street, city, state, zip code), and telephone number (area code - telephone number) in the spaces as noted in the column headings. Do not report transfers. See glossary.

5. Indicate whether the student completed 100% of the program or less than 100% by placing an 'X' in the appropriate box.

6. Place an 'X' in the appropriate box for sex (M-male, F-female) as well as for race/ethnic category. If this individual is a non-resident alien, omit race and check this box instead.

7. Place an 'X' in the appropriate categories if applicable to the student:

   a. 'Hand' - Handicapped
   b. 'Lep' - Limited English Proficiency
   c. 'Disadv' - Disadvantaged
   d. 'Student in JTPA' - Job Training Partnership Act

8. Indicate the type of award of the individual:

   a. 'Degree' - (e.g. associate or baccalaureate)
   b. 'Dip or Cert' - Diploma or certificate
      Select either 2 years, 1 to less than 2 years, less than 1 year
   c. 'No Formal Award' - Neither degree or diploma/certificate

9. Return these forms along with your CE-4 reimbursement request.

4647 Stone Avenue — P.O. Box 265 — Sioux City, Iowa 51102 telephone (712) 276-0380

Dear Former Student:

Western Iowa Tech Community College is conducting a survey of people who were students during the 1984-85 school year. We would like to know your opinions on the quality and usefulness of your training as well as other information which will aid us in assessing the effectiveness of this training. The purpose of this study is to evaluate the strengths and weaknesses of the specialized educational programs offered by this institution.

We will sincerely appreciate your taking a few minutes to fill out the enclosed questionnaire and return it in the postage-paid envelope.

You may be assured of complete confidentiality. The questionnaire has a gummed label for mailing purposes only. This is so that we can check your name off the mailing list when your questionnaire is returned. Your responses will be combined with those of other former students in summary form only. The reports will never identify individuals.

This study will help to strengthen the educational programs in Iowa, and it has long-term benefits to all Iowans. Your participation is important and will be greatly appreciated.

Thank you in advance for your cooperation.

Sincerely,

Larry M. Bolanos

STUDENT FOLLOW—UP SURVEY

INSTRUCTIONS: Please read each question carefully. Then respond by checking (✔) one of the answers. If your exact answer is not listed, check the answer that comes closest to it.

All information on this questionnaire will be kept confidential. The gummed label on the middle of the back page contains the name of your program in order to assist you in filling out the questionnaire. The number is for mailing purposes only. We will use it to check your name off the mailing list when your questionnaire is returned.

Please return this questionnaire in the enclosed **Postage-Paid Envelope**.

Thank you for your cooperation.

③

(1-5)

PART A. VOCATIONAL EDUCATION INFORMATION

(7)

1. What is your current educational status? *(Check one)*
   - (1) ____ Currently attending school
   - (2) ____ Not currently attending school

(8)

2. If you are currently attending school, where are you attending? *(Check one)*
   - (1) ____ At same institution
   - (2) ____ Another community college
   - (3) ____ Four-year institution
   - (4) ____ Other, specify ______________________________

(9)

3. If you are attending school, is your current educational program related to your former vocational education program? *(Check one)*
   - (1) ____ Yes, directly or closely related to vocational program
   - (2) ____ No, it is only remotely or not at all related to vocational program

(10)

4. What is your current employment status? *(Check one)*
   - (1) ____ Employed (includes all employment, even if below your qualifications; does not include full-time military service).
   - (2) ____ Employed (full-time military service)
   - (3) ____ Unemployed (not employed, but actively seeking employment)
   - (4) ____ Not in the labor force (not employed and not seeking employment because of choice, illness, full-time student status, retirement, pregnancy, or other reason).

If you are **currently employed**, *please answer the remaining questions.*
Otherwise go to Part B, page 2 and answer questions.

PRESENT JOB INFORMATION:

Job Title ______________________________

Job Duties______________________________

____

____

(33)
6. Is this job related to your field of vocational education?

(1) _____ Yes, it is directly or closely related.
(2) _____ No, it is only remotely or it is not related at all.

(34-37)
7. What is your current wage before deductions? *(Do not add overtime).*

$__________ . _________ per hour

(38-39)
8. The wage in the preceding item is based on how many hours per week employment?

________________ hours per week.

PART B. VOCATIONAL EDUCATION PERCEPTIONS

(40)
1. How did the vocational instruction you received after high school compare with your expectation? *(Check one)*

(1) _____ Outstanding
(2) _____ Above expectation
(3) _____ Met expectation
(4) _____ Below expectation
(5) _____ Unsatisfactory

(41)
2. How important do you feel your vocational instruction was in obtaining employment? *(Check one,* **If applicable***)*

(1) _____ Of major importance
(2) _____ Of some importance
(3) _____ Neutral
(4) _____ Of little importance
(5) _____ Of no importance

(42)
3. How well do you feel your vocational instruction prepared you to perform in your employment? *(Check one,* **If applicable***)*

(1) _____ Very well
(2) _____ Reasonably well
(3) _____ Well enough to get along
(4) _____ Not well
(5) _____ Of no value

(43)
4. If you are employed in an area related to your program, how difficult was it to find employment? *(Check one,* **If applicable***)*

(1) _____ Very difficult
(2) _____ Difficult
(3) _____ With some difficulty
(4) _____ Somewhat easy
(5) _____ *Easy*

(44)
5. After I started looking for a job, I found my employment-related position in *(Check one,* **If applicable***)*

(1) _____ Less than 30 days
(2) _____ 30-90 days
(3) _____ 90-180 days
(4) _____ 180 days or more

(45)
6. What was your primary purpose in enrolling in your vocational program? *(Check one)*

(1) _____ Obtain employment
(2) _____ Re-training
(3) _____ Upgrading present skills
(4) _____ Career exploration
(5) _____ Personal enrichment
(6) _____ Other ______________________

(46)
7. Did you meet your objective in question 6 before leaving your program?

(1) _____ Yes
(2) _____ No

Thank you for your cooperation.

Dear Former Student:

Some time ago I wrote to you seeking your opinions of the educational training you received during 1984-85. We are asking for your opinions so that we can learn how to improve the quality of training which prepares students for employment.

In order to obtain reliable results, it is important that everyone selecte participate in the study. As of today, we have not received your questionnaire. We are enclosing a replacement questionnaire and postage-paid envelope in case the original has been misplaced. We would sincerely appreciate your taking a few minutes to participate in this important study.

Sincerely,

Larry M. Bolanos

ROBERT D. BENTON, Ed.D., COMMISSIONER
David H. Bechtel, M.S. Administrative Assistant
JAMES E. MITCHELL, Ph.D., DEPUTY COMMISSIONER

Attention: Manager or Personnel Director

Dear Employer:

The Iowa Department of Education is conducting the attached survey of employers of persons who received specialized training during the 1984-1985 school year.

The purpose of the survey is to evaluate the strengths and weaknesses of the specialized educational programs offered by Iowa's high schools and merged area schools (community colleges). It is not an attempt to evaluate individual workers. The data obtained from the survey are essential for reporting the results of vocational training supported in part by federal funds.

The enclosed questionnaire should be completed by the person within your organization who has had the best opportunity to observe the employee designated on each form. A postage-paid business reply form is printed on the reverse side of the questionnaire for your mailing convenience.

Your responses will be combined with those of several thousand other employers in summary reports. The reports will never identify an individual worker or employer. The results will be grouped according to the type of vocational training program and the school providing the training. For this reason, it is important that the returns be as complete as possible.

This survey will help strengthen the educational programs in Iowa, a potential benefit to all employers and to the state's economic health. Your cooperation is important and will be greatly appreciated.

If a student (employee) is unknown, never worked for you, etc., a response to this effect will be very helpful and will spare both yourself and the survey agency the need for a repeat mailing.

Thank you in advance for your help.

Sincerely yours,

Robert D. Benton

STATE OF IOWA
DEPARTMENT OF EDUCATION
EMPLOYER FOLLOW-UP SURVEY

INSTRUCTIONS: Please read each question carefully. Then respond by checking (/) one of the answers. If your exact answer is not listed, check the answer that comes closest to it.

All information on this questionnaire will be kept confidential. To assist you in filling out the questionnaire, the gummed label on the back page contains the name of your employee and the kind of vocational training s/he received. The information is for mailing purposes only. We will use it to check your name off the mailing list when your questionnaire is returned.

Please return this questionnaire; a **Business Reply** form is provided and must be visible when refolding the form. Please seal with cellophane tape to prevent opening during transit.

Thank you for your cooperation.

Bureau of Career Education
Department of Education

Please answer the following questions concerning vocational preparation.

⑤ A. EMPLOYEE INFORMATION:

(1-5)

1. *Job Title of Employee:*
   Initial Job Title ______________________________
   Current Job Title ______________________________

(7-8) 2. Number of months of total employment: ☐☐

(9) 3. *Was person employed in a task or position related to the training listed on the gummed label?*

1. ____Yes 2. ____No

(10) 4. Present status with your firm: (Check one response)

(A)____Currently employed
(B)____Discharged
(C)____Quit Voluntarily
(D)____Other ______________________________

B. EMPLOYER INFORMATION:

1. Person Responding ______________________________
   Title ______________________________
   Phone Number ______________________________

(11-14) 2. Number of permanent, full-time employees on payroll ☐☐☐☐

C. GENERAL REACTIONS—VOCATIONAL EDUCATION INFORMATION:

NOTE: This section is authorized by law (20 USC 2312 and 20 USC 2391). While you are not required to respond to this survey, your cooperation is needed to insure that the results of this effort are comprehensive, reliable, and timely.

1. *Vocational Training Evaluation:*

Please rate the vocational training received by the individual in each of the following three areas: (Circle one letter on each line)

		Very Good	Good	Neutral	Poor	Very Poor
(15)	Technical knowledge	a	b	c	d	e
(16)	Work attitude	a	b	c	d	e
(17)	Work quality	a	b	c	d	e

370-1085
4/22/85

(18) 2. *Over-all ratings:*

What is your over-all rating of the vocational training received by this individual as it relates to the requirements of his/her job? (Circle one)

	Very Good	Good	Neutral	Poor	Very Poor
Over-all rating	a	b	c	d	e

(19) 3. *Relative Preparation:*

As a result of this person's vocational training, how would you rate his/her preparation in relation to other employees in his/her work group who did not receive such training? (Check one response)

(a)____No basis for comparison.
(b)____Individual is better prepared.
(c)____Both are about the same.
(d)____Individual is less prepared.

D. RECENT EVALUATION:

Circle one letter on each line to indicate the level of performance the individual exhibits (or exhibited before termination) for the respective competency or characteristics required by the job.

		Out-standing	Above Expected	Generally Meets Expected	Below Expected	Unsatis-factory	Does Not Apply
(20)	1. *Quality* of employee's work.	a	b	c	d	e	f
(21)	2. *Quantity* of employee's work.	a	b	c	d	e	f
(22)	3. *Job skills*—what worker must do (involves producing, servicing or repairing activities).	a	b	c	d	e	f
(23)	4. *Technical knowledge* — what worker must know (information necessary to form judgments in doing the work).	a	b	c	d	e	f
(24)	5. *Work attendance.*	a	b	c	d	e	f
(25)	6. *Punctuality.*	a	b	c	d	e	f
(26)	7. *Compliance* with other company policies, rules and practices.	a	b	c	d	e	f
(27)	8. *Willingness* to accept responsibility.	a	b	c	d	e	f
(28)	9. *Ability to work* with minimal supervision.	a	b	c	d	e	f
(29)	10. *Cooperation with co-workers.*	a	b	c	d	e	f
(30)	11. *Cooperation with management.*	a	b	c	d	e	f
